EWPE Smart – App for Wilfa varmepumper

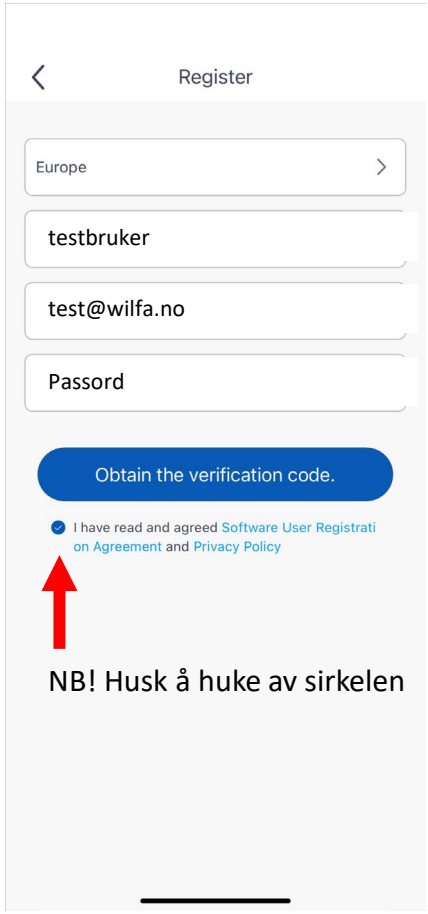

Opprett konto

1: Last ned «EWPE Smart» i App Store eller Play-butikk

2: Velg «Register»

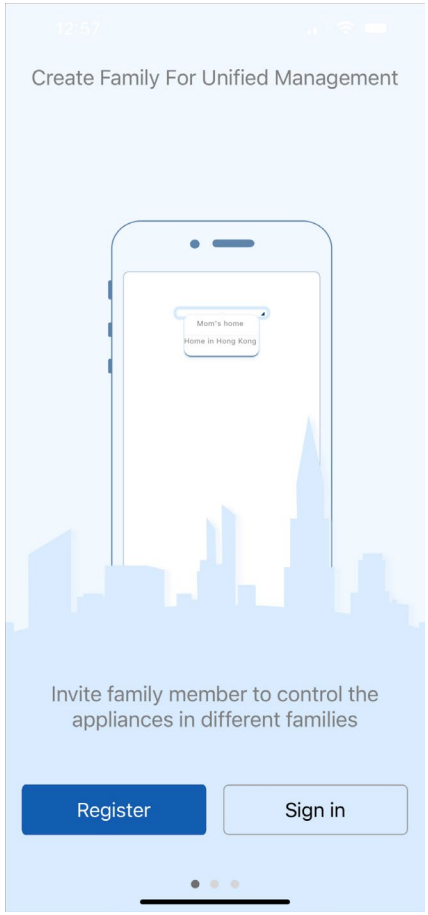

NB! Husk å huke av sirkelen

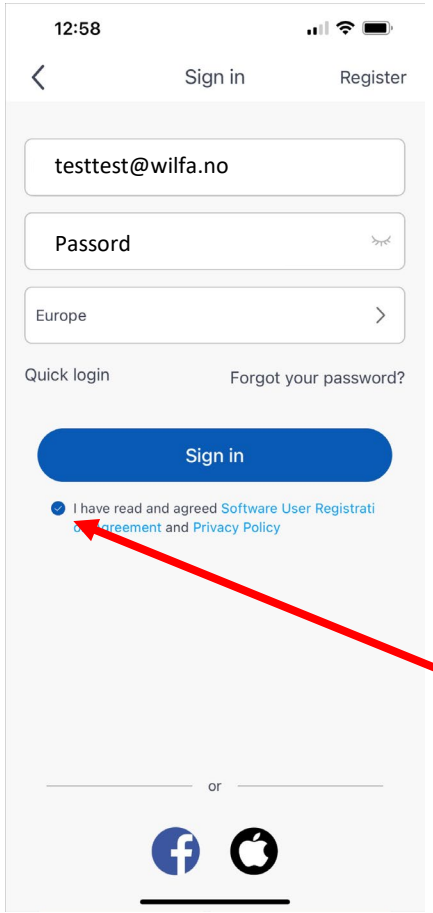

3: Legg inn brukernavn og e-postadresse. Trykk på «Obtain the verification code».

En verifiseringskode vil sendes til e-postadressen din i løpet av noen minutter. Sjekk søppelpost.

Logg inn

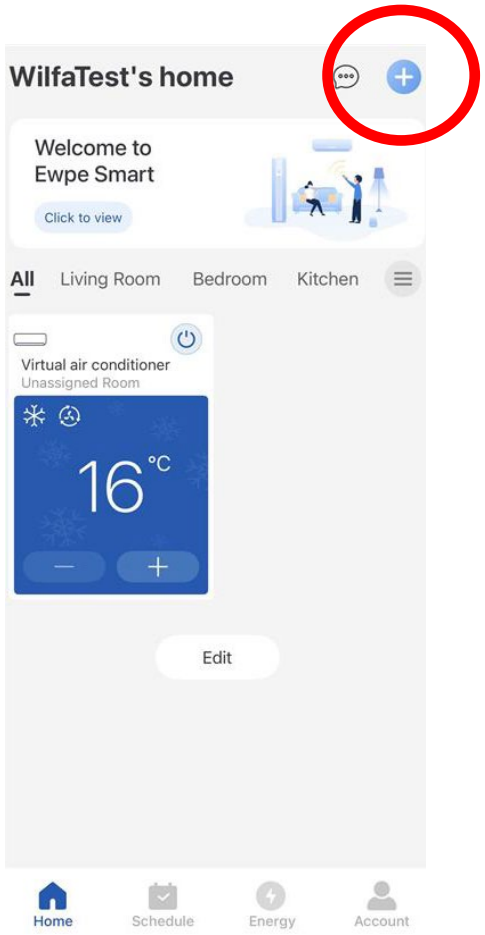

4: Sign in

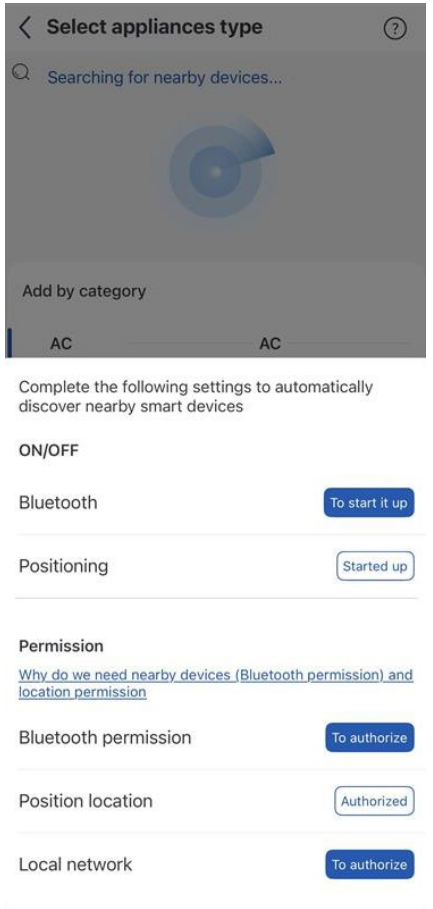

NB! Husk å huke av sirkelen

5: Fyll inn e-postadresse og passord

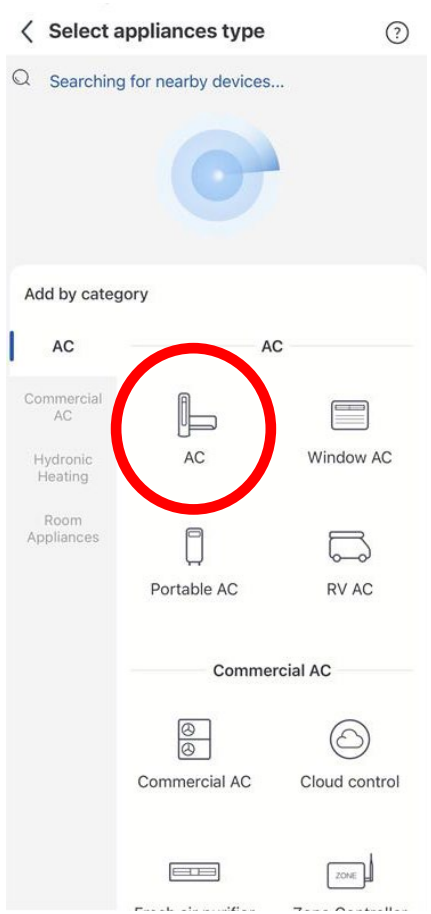

Oppsett

6: Legg til enhet

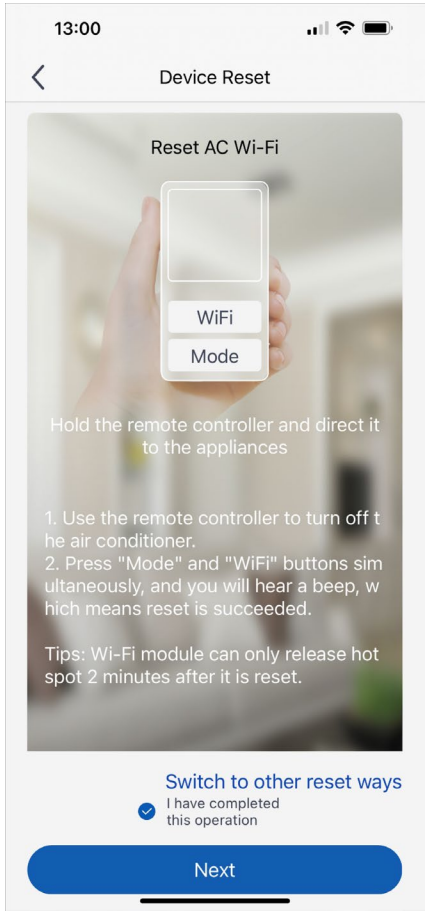

7: Godkjenn alle tillatelser

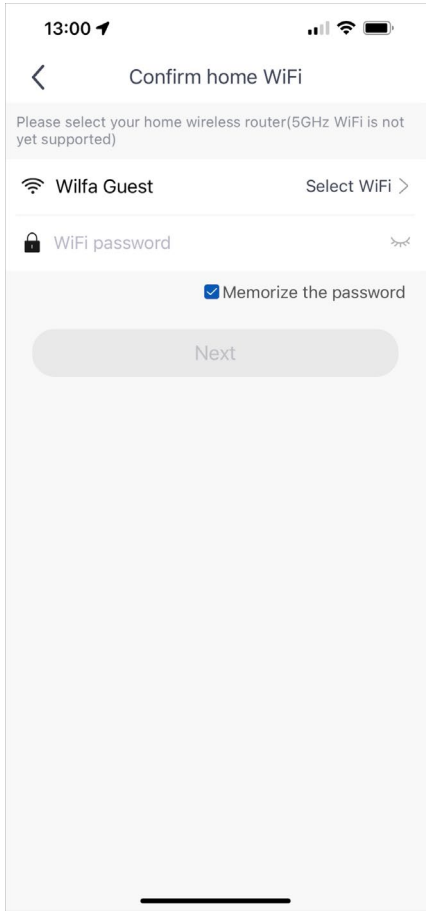

8: Velg AC

Tilkobling Wi-Fi

NB:
Varmepumpen må være slått av. Rød lampe skal lyse på varmepumpen.
Velg 2,4 GHz-bånd. Ikke 5 GHz-bånd.

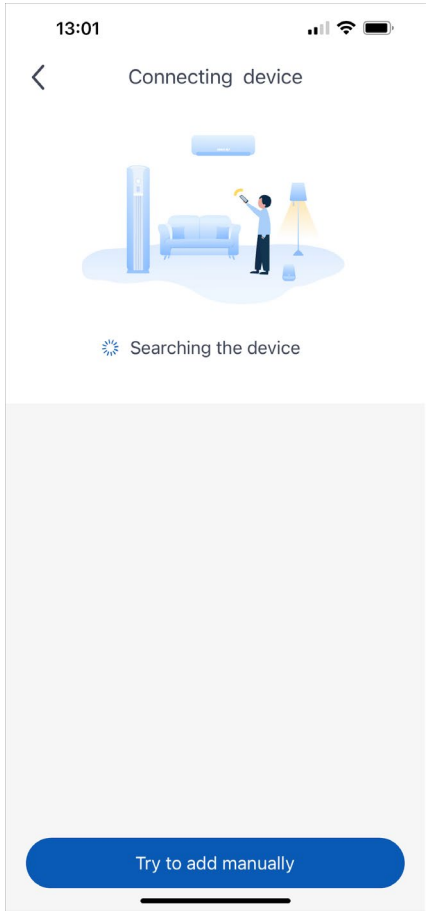

9: Pumpen skal være skrudd av. Trykk på 'Wi-Fi' og 'Mode' samtidig til du hører et pip fra varmepumpen.

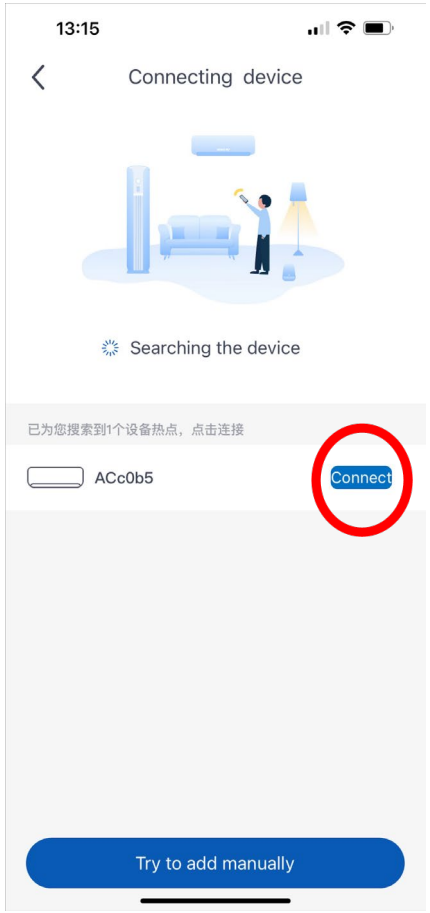

10: Fyll inn nettverksnavn og passord. Kontroller at passord er riktig.

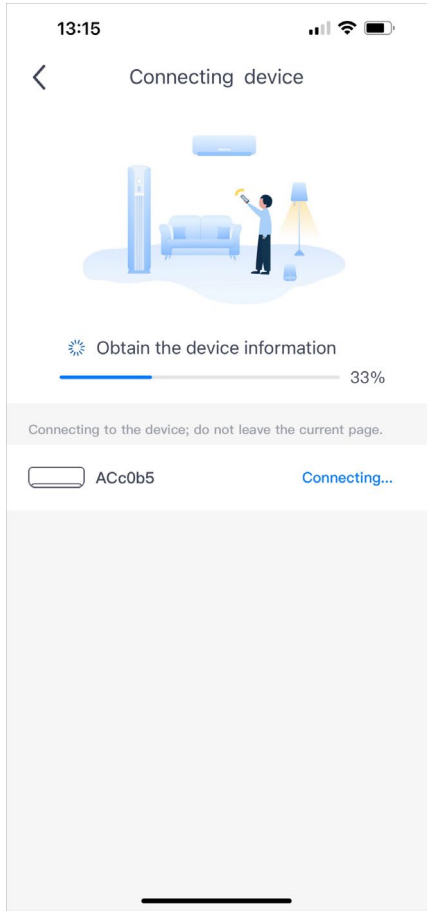

Tilkobling varmepumpe

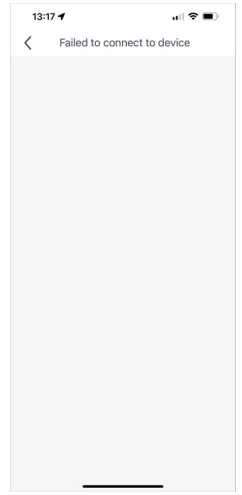

11: Det kan ta noen minutter før pumpen kommer opp

12: Trykk på Connect

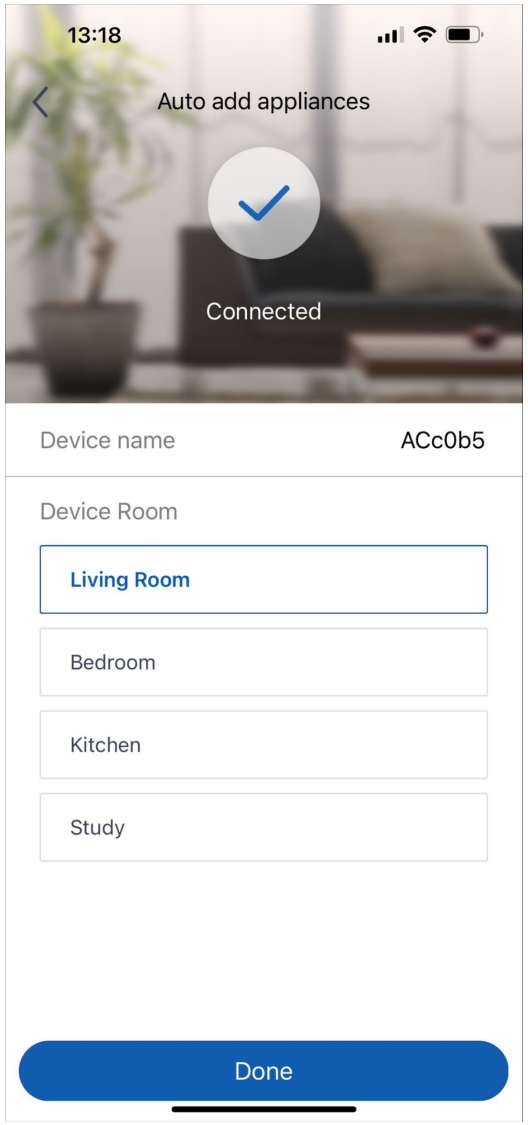

13: Kobler til…

Dersom tilkobling mislykkes, gjenta prosessen fra Tilkobling Wi-Fi, steg 9.

Tilkobling fullført

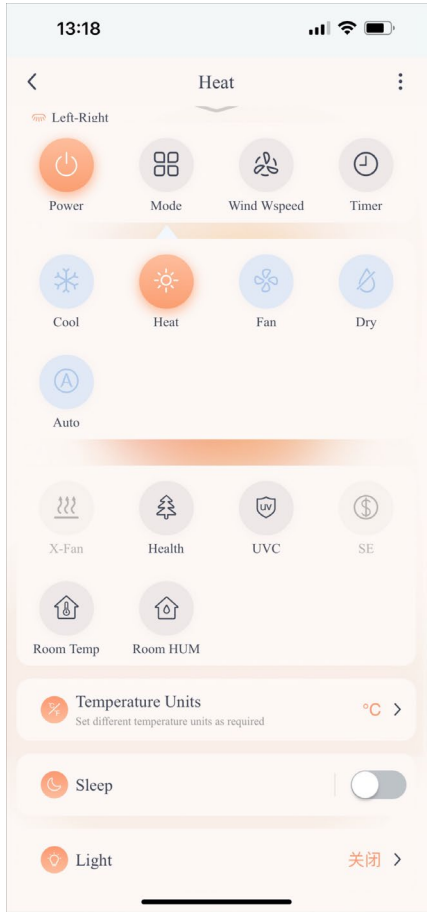

14: Pumpen er nå tilkoblet

Oppsett

Skru på pumpen

Dra opp menylinjen for å velge modus, viftehastighet, temperatur m.m.
