JASMINE — adds fragrance!

24 hours operation with interval mode

Easy handling

Suitable for essential oils without alcohol

Interval mode

A noticeably subtle fragrance but still a discreet appearance – that's Jasmine. Like a simple bowl, she gently releases your favourite fragrance, at 20-minute intervals if you wish – and throughout the day! Using ultrasonic technology, she transforms the water blended with essential oil into an extra fine mist and dispenses it into the surroundings. With the 100 % pure essential oils from Stadler Form Jasmine creates rooms to feel good in.
